Hi,

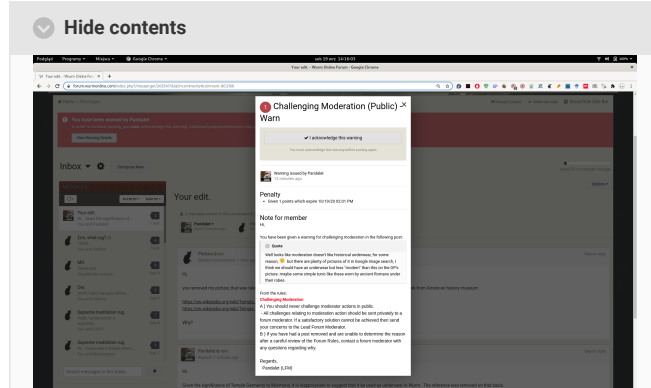

I also posted more fitting into the medieval setting historical Mormon underwear, the photo was removed by a moderator (obviously museum exhibits' photos can be triggering too), but it is taken from this article:

https://en.wikipedia.org/wiki/Temple_garment

Modern version looks even nicer, as it is a simple white shirt and panties based on modern underwear:

I think these could bring some inspiration to you, well I got in trouble for posting that, so I hope it will be helpful.

Hey Platyna!

Yes, something like the undershirt and undershorts if done in a medieval style would work as well. Thank you for trying to contribute!
