Played this game for a while, and i belong from 3D animation and VFX background. So here will be some Pros and cons. But first cons as its a long list than Pro's.

## Cons -

1. This is a pay to win game. Not for free to play players. Game is free to attract whales (if u are a games u know what i mean)
2. Very old graphics for 2021. Runs on Java which is very buggy very bad aniamtion. And lots of errors unmodified which is a serious unfinished thing.
3. Game have very bad Dev team. They never listen. They will insta ban you never matter how much you spend.
4. Well after sometime you will start to loose interest if you are a pro player if u aren't paying and u decide to come back there is no guarantee that you will get it back.

## Pro -

1. Detail Building system as this game is here for a long time. Can be a good time pass.
