I have, regretfully, played too many hours in the non-Steam client of Wurm Online. This is the type of game where after you've been suckered in to buying premium so you can enjoy the game beyond the low skill cap and also silver from the coin shop so that you can buy items from other player crafters, and then pay more silver to rent land to protect your items from theft, you realize that you've wasted a ton of time and money. Also the staff, specifically Retrograde the Public Relations Coordinator, is a big jerk that everyone complains about and has hurt the game more than anything. Don't waste your time with this game.
